IN GRATITUDE

The year 2017 marked IOCC's 25th anniversary – a milestone in delivering emergency relief and development assistance to people in great need around the world.

In the past year, IOCC has continued offering essentials like food and water to those who struggle to access them, along with longer-term efforts like building agricultural productivity and training health workers and entrepreneurs. Families displaced in their own country and those seeking refuge across a border; school-children who need textbooks and young adults learning new job skills; farmers faced with drought and families earning a living through their gardens – you've offered all these people compassion in the spirit of Christ's love.

You are central to this organization's growth; your financial support and generous gifts of time offer hope to those facing great hardship. As IOCC's reach continues to grow, so does our commitment to the highest standards of excellence and accountability.

Thank you for making all this possible, for believing that the Church can and should serve our neighbors by tending to their most basic needs.

In Christ,

Constantine Triantafilou
 Executive Director & CEO

Mark Stavropoulos
 Chairman of the Board

IOCC, in the spirit of Christ's love, offers emergency relief and development programs to those in need worldwide, without discrimination, and strengthens the capacity of the Orthodox Church to so respond.

Project Highlight: After the Storms

When Hurricanes Harvey and Irma hit the US Gulf Coast, you helped IOCC respond swiftly. Frontliners provided spiritual and emotional care to hundreds of families; we offered water, food, and shelter; and IOCC staff and volunteers cleared homes of damaged items and debris. Tarps, generators, and clean-up buckets, plus financial assistance for over 100 Orthodox families, were all part of the response, which continues in 2018.

Project Highlight: Big Dreams in Uganda

Juliet (left) enjoys studying English and aims to become a reporter. Abdul (right) loves physics and wants to be a construction engineer one day. Judith (center) plans to study nursing. A journalist, an engineer, a nurse – these are the career plans of three high-schoolers at the Uganda Orthodox Church's boarding school in rural Lwemiyaga. Upgrades that IOCC is making include a new dormitory, which the youth had a chance to visit as it was going up. The school gives its students a safe place to learn, helping them move one step closer to their goals.
