

# IOCC's Homefront

*Homefront parishes prepare before disaster strikes, equipping and positioning themselves to continue their ministry – even amid emergencies – and to serve their neighbors during a crisis.*

**A pipe bursts and floods the church hall.**

What will your parish do?

What steps will you take?

**Someone has a medical emergency during liturgy.**

Does the service continue?

Who should act, and what will they do?

**A natural disaster devastates your town.**

How can your parish serve survivors?

Whom do you contact to let them know you can help?

## WHY JOIN THE HOMEFRONT?

Homefront Parish Preparedness Training with IOCC equips you and your fellow parishioners to think through scenarios like these – and more – and design a preparedness plan to guide your response. You'll learn about evaluating vulnerabilities, identifying resources, and taking steps to reduce risks.

**BECOME HOMEFRONT PARISH PREPARED.**
